## CNC MACHINING & TURNING

- Okuma Millac 800VH Multi-Axis Horizontal Machining Centre
- Okuma MB-56VA Multi-Axis Vertical Machining Centre
- Okuma MF-46VA Dual-Axis Vertical Machining Centre
- Okuma LB300-M Multi-Axis CNC Lathe
- Okuma Multus B400 Multi-Axis CNC Lathe
- Okuma Soarer L270 Dual-Axis Swing Over CNC Lathe

## PLASMA CUTTING

---

Kinetic K2500DA  
Computer  
Programmed Plasma  
Cutter

Featuring digital  
touch-screen controls  
and a 6,500mm cutting  
bed

Equipped with two 5-  
ton overhead cranes, to  
ensure the efficient  
and swift handling of  
steel materials

## SHOT BLASTING & SURFACE FINISHING

---

Tochu TMR-3FT-1TY  
Monorail Shot Blast  
Machine

A high-efficiency  
enclosed blast  
chamber designed for  
surface preparation

High-quality cleaning  
and finishing,  
removing rust, scale,  
and contaminants  
from metal surfaces

## FABRICATION & WELDING

---

Three Welding Bays –  
Fully outfitted MIG, TIG,  
and arc welding  
stations

Our welders have  
extensive experience in  
working with a wide  
range of metals

Two advanced metal  
band saws – designed  
for precision cutting  
and metal stock  
preparation

## INDUSTRIAL PAINTING & COATING

---

A fully enclosed,  
temperature-  
controlled 10m x 5m  
spray booth

A dedicated paint  
mixing room for  
custom colour  
matching and  
specialty coatings

At EdgeTech Manufacturing, we collaborate closely with you to bring your designs and metal projects to life. Leveraging our in-house capabilities, we ensure the creation of high-quality metal products tailored to your specifications

Whether it's cutting steel sheets to precise sizes or manufacturing intricate parts with high precision, we are committed to delivering consistent and reliable results
